What inspired you to run for school board? What makes you uniquely qualified to hold this position?

I love and believe in public education. At the end of this school year I will retire with 35 years of service in public education. I may be done with being in the classroom full time, but I am not done with public education. My experience makes me the most experienced and knowledgeable out of all the candidates and the most prepared to be ready on day one.

From your vantage point, what are KUSD voters' three biggest concerns in 2026?

1. Improving academic success for ALL students (closing the achievement gap and including special education services).
2. Transparency, Accountability and equity from the administration (a lot of teachers and community members feel betrayed by the administration and the board).
3. Safety and security for all students including physical safety, safety for immigrant students, and respect for all students.

What is the last book you read?

The Tattooist of Auschwitz by Heather Morris

If you could seek advice from any person in history, who would it be and why?

Eleanor Roosevelt. I would ask her, "How does one stay true to their values amidst all the noise and criticism?"

What do YOU see as the three biggest challenges facing the school board?

1. Rebuilding trust with the community and the teachers
2. The board working together and being respectful to each other so that the focus can be on the students and get stuff done.
3. Lack of funding from the state

What are three things about you that voters should know, but cannot learn from reading your campaign materials?

1. I can drive a stick shift (never know when you will need to drive stick shift)
2. I received speech therapy for many years as a child.
3. Both of my parents were only children so I have no aunts, uncles or cousins.
